

THERMOGARD

Precision, packaged.

PRE-QUALIFIED PAPER SHIPPERS

We've done the hard part for you. Testing cool chain packaging with your product can be a laborious and time-intensive process, yet it's indispensable, particularly in the pharmaceutical industry where revenue risks are significant.

With our in-depth knowledge of pharmaceutical requirements, our team has developed and tested our products in kit form. With **curbside recyclable RSC cartons** and a **robust paper liner, composed of waste paper**, our kit assures you that your product will transit safely and sustainably to its destination.

TRUSTED • TESTED • KITTED
